Things You Should Know About PiE

1. Parent founded, parent funded
   PiE was founded by parents who wanted to improve their children’s public education. Today, over 100 parent volunteers dedicate their time and talent with PiE to help all PAUSD students. In 2019-20, with support from our donors, PiE gave $5.97 million to Palo Alto schools.

2. Your child benefits from PiE-funded staff and programs
   Donations to PiE enrich the education of every student in PAUSD. Dollars are distributed per pupil, so every school can have equitable programs.

3. Without PiE donations, schools would need to cut programs and staff
   Did you know that PAUSD gets more dollars from PiE each year than it receives from the federal government? The district simply does not receive enough funding to cover the classroom aides, counselors, and instructors our students depend on. Your PiE donations are essential to maintaining the current level of programs and staffing.

4. PiE’s suggested donation per student is less than or comparable to neighboring school districts
   Palo Alto Schools are able to provide more programs and staff for students than neighboring school districts for less money. The $1,200 suggested donation per student is a benchmark for many donors, but it also represents the real dollar amount needed to sustain programs and staff.

5. We are in this together
   By contributing however we can, our children benefit with increased support and enrichment. With the support of every family, each school would be able to offer even more hours with Classroom Aides, additional science labs, and more units of music and art. Every dollar really does make a difference. Please donate today.

6. Donations can also be made in installments or pledges (to pay later in the year)
   You can schedule your donation in a way that works best for you and your family. Many employers offer donation matching which can double the size and impact of your contribution.
